SAMUEL W. COURTYRIGHT,
WILLIAM H. SAFFORD,
SAMUEL F. STEELE.

Democratic County Ticket.

For Clerk of Court,
Arthur McCourtney

For Probate Judge,
William T. Acker

For County Treasurer,
John Nioestone

For County Commissioner,
John T. Nuler

For County Surveyor,
James W. Davis

For Inferior Director,
Andrew Wright

"A working man" from Gore, in last week's Gazette, has evidently worn out the seat of his breeches in his hard work for the Syndicate, and whines his distress in a column article in the Gazette, and makes faces at the Sentinel.

The point he attempts to make is that the reduction of wages is not due to the Republican party. We assert it is and the facts are before us.

We are living under a system of laws made and enforced by Republican party for the last quarter of a century. The Republican legislation on tariff exists and is in full force to-day. It has beggared the workmen of the Valley, if legislation has anything to do with the working class.

Your Syndicate is a Republican organization, a Monopoly, the pet child of Republican parents. Every man of your Syndicate is a Republican. Your Syndicate refuses to pay workmen living wages and imports into the Valley paupers to take their places.

To protest against this, the hired clerk at Gore says is communism.

It is Justice. It is Democracy. When you are tipped from your stool and a cheaper man put in your place, you can have time to patch your pants, worn out by hard work sitting on a cane bottomed chair, sneering at working men, and can have opportunity to consider more impartially the position of the Sentinel.

The remnants of the Stateville Independent, once a bastard "seeming necessity" to St. Reuben Butler in his attempt to break up the Perry county Democratic party, was purchased last week by Mr. Mains, who will use the material in enlarging his very excellent paper, The Somerset Review.

Enmit Tompkins, the long-tailed lawyer from Athens who asked kings-ence from further interference in Logan Republican politics has undertaken the work of Prosecuting Attorney for the Syndicate State of Ward. No pent up Athens can restrain his lengthy limbs.

The Agricultural Department at Washington estimates the wheat crop for this year at about 485,000,000 bushels.

THE STRIKE.

The Strike still continues, with but slight indications of an early end.

Last week a number of Poles were brought to Buchtel, Athens Co. Their appearance provoked considerable feeling, and several fights occurred. A call was made by the Syndicate on the Governor for State troops, but the request was denied by the State authorities. The sheriff of Athens county is on the grounds and exercising his authority in preserving peace.

In Hocking county all is quiet and no outbreak nor violence feared.

Suits are in progress before all squires in the mining region for the purpose of throwing the striking occupants out of doors.

A force of 300 new miners are reported on their way to Straitsville, to supplant the striking miners there.

It is feared the introduction of these men at Straitsville, will precipitate an outbreak.

The supply of provisions continues to be sent in abundance from abroad and the strikers have plenty to live on. The serious apprehension is that they will be turned out of their homes.

The hope is, that good sense and justice will prevail in the dispute and that the differences will be honestly, fairly, peaceably and speedily adjusted.

BADLY SCARED.

A Pittiful Plea for Money.

OHIO LOST TO THE REPUBLICANS. UNLESS THE MONEY IS PUT UP.

Fred Mussey, the late son-in-law of Governor Foster, writing from Columbus to the COMMERCIAL-GAZETTE, says:

"The extracts from his letter, published here, shows how badly the son-in-law of Foster is scared, and how anxious he is to have the 'funds' sent in at once:

"Are you calmly sitting back in strength of the old and hitherto true claim that Ohio always goes Republican in a Presidential year, and waiting for her to hand in a big Republican majority on a silver platter? If so, you will wait a long, long time.

Your committee is without money, and is unable to raise any. Without money you cannot run a campaign. The Democracy have the pride and advantage of place and power, and are united, bold and aggressive.

"If one of our candidates unable to receive any aid from the State Committee, which is unable to help it, much less help anybody else, are running their own campaign, inviting their own speakers and appointing their own meetings, rallies, etc. This is a beautiful spectacle for the Republicans of Ohio, while the committee are skimming around to get money to pay clerk hire, rent, gas and postage.

"In the first place the entire government of the State in the hands of the Democrats for the first time in its history.

"Out of all the elective offices, from Governor down, we have but three in the hands of the Democrats. The Democratic offices are held by Democrats, and the Democrats have fifty out of the eighty-eight counties. They will still have, too, a majority of the Congressional Districts after election, unless some unlooked for tidal wave comes sweeping across the political deeps."

"Ohio is a close State. At the machinery, all the political power is in the hands of the Democratic party for the first time in the State's history.

"There is a battle to fight, a victory to win, and there will be no bloodless capitulation on the part of the Democracy.

"Send contributions in any sums you can to the State Committee; see that that organization is well supplied, and that on election day there is not a stay at home Republican, and all will be well."

F. D. M.

At the Connecticut Republican Convention last Wednesday, a Federal officeholder in the chair as president, "arraigned the Democrats for wanting to reduce American labor." This was a hard hit at Frank Jones, Blaine's Chairman, besides being a lie to the Democracy. Mr. Jones was the first importer of European contract labor, and he made his importation under a law passed by a Republican Congress with the approval of Blaine and Butler. They were too busy furthering interests of corporations and land grabbers to object.

This also hits Frank Wheeler, Republican elector, agent for the Syndicate in the Hocking Valley.

The syndicate is proposing to build extensive barracks in which to hold the pauper labor they are introducing in the Valley. This is the Republican plan of protecting industries. The old slave master gave each of his negroes a hut in which he lived with his family. The syndicate holds its slaves in hordes. The family, the corner stone of society, is abrogated by the words that Turkish despotism established in the Hocking Valley.

The Cincinnati Commercial denies that Blaine will be withdrawn from the ticket. The clamor for his removal still continues.

Hocking County Teachers' Institute.

The Teachers' Institute closed one of its best, if not the best session yet held, on last Friday. During the term there were 132 teachers enrolled and a respectable number of these were present every day and at every lesson.

The average daily attendance was 54; better than it has been. No stronger proof of the success and interest of the Institute can be given than the large enrollment and the regular attendance. Yet compared with the number of applicants for certificates we find the enrollment might have been twice as large and there would not have included the so-called teachers.

On examination of the roll we find that the young, enterprising and successful teachers attend institutes. All the work done in the Institute was strictly on the Normal plan. The various theories were put into actual practice. The teachers not only learned methods of teaching, but saw them applied. They learned more of what was in the books and much that was not in them.

Mr. Coler had previously prepared long printed slips of problems in arithmetic and sentences in grammar. The solution of the fifty problems in arithmetic brought out every principle that is found in the ordinary school arithmetic, and the sentences, though few in number, were long and wisely selected. They brought out all the leading features of the English language and its idioms.

Besides this, each sentence to a certain extent furnished a review in literature. In fact this was no small feature of the Institute.

The author of every sentence was critically reviewed before the grammar of the sentence was undertaken.

Mr. Coler also gave daily lectures on Theory and Practice of teaching and on school management. Many of these lectures were then discussed by the teachers. The experience of the teachers on many of the questions was freely given.

Among the questions discussed were, How to prevent tardiness and absence. How to create interest in the various branches taught and how to teach them. How to interest directors and parents. How to conduct literary exercises in the schools. Methods of conducting opening exercises, etc.

During each discussion there was a teacher appointed to take notes and to prepare a paper on the subject of the discussion.

The feature of these discussions was, that they dealt with the practical and not with the evils or the importance of the subject. Mr. Sedem had charge of the Geography and U. S. History.

The methods of teaching these branches to primary classes was slightly touched at the opening and then dismissed.

Political geography depending so much on the memory was omitted. The leading facts in modern, classical and physical geography were reviewed and led to some lengthy discussions.

In the History the teachers were confined to learning the text.

As announced for the opening day, Mr. Coler gave a talk on "How to make history interesting." This was supplemented by Mr. Sedem at the close of the Institute. He also gave the various methods of conducting history recitations and touched upon the benefits of the study.

The teachers were shown the importance of biographical sketches of leading historical characters. The teachers also received some valuable and practical hints in essay writing and object lessons.

Last Wednesday afternoon was set aside as parents' and directors' day, and questions in which they were particularly interested were discussed. Some of these were, the location and building of school houses; the employment of teachers, (in all its varied forms) school appliances, their duties under the law, etc.

The attendance of parents and directors was smaller than it should have been, considering the important part they play in the school system of our State.

On Wednesday afternoon of first week, Mr. E. W. Work read a very interesting and instructive paper on books and reading. He dwelt upon the importance of this subject to teachers in particular. The lecture was rich in good thoughts expressed in choice language, and made a favorable impression on the teachers.

Would that more of our teachers had heard it and that more would have the sound advice given.

On Thursday evening of the first week, Mr. Coler gave a lecture on "Mistaken Views on Education." It was ably and practically discussed, and was deserving of a larger audience.

A strong point in the lecture was that mere knowledge is not education. The mental discipline obtained in the acquisition of knowledge is a far more potent factor of education than the knowledge itself. It is not the part. He also showed that education in its general sense extends into the fields of morals, science, art, aesthetics, etc. He gave many quotations to substantiate his arguments.

On Thursday evening of last week, the teachers held a meeting, at which Mr. Coler gave another short lecture on the Confederation of the Colonies. The teachers then discussed several topics related to their work. There were two essays read: The Teacher and His Mission, by Mr. T. M. Cherry and a very interesting essay on Moisture, by A. M. Brown.

There was then a short time given to sociability, and the meeting adjourned.

At the business meeting on Friday, it was moved to instruct the next executive committee to offer a series of prizes—one to the teacher producing the best paper on literature; another to the school showing the best set of examination papers; another to the school presenting the best set of maps drawn by pupils; and another to the school producing the best set of blocks and figures to illustrate surfaces and solids made by the pupils. After some discussion as to the legality of such a proceeding by the executive committee, the motion was adopted.

The report of the committee on course of reading for teachers is given elsewhere.

The committee on resolutions reported as follows:

Resolved, That the teachers in convention at the Hocking County Teachers' Institute, have had a most pleasant session and have received more than usual benefit therefrom.

Resolved, That we proffer our thanks to Messrs. Coler and Sedem for their practical methods of instruction in the art and science of education.

To Rev. Hart for conducting opening exercises and his invitation to the Church social.

To Messrs. Work and Friesner for lectures.

To the Logan School Board for the use of the rooms and other property, and to the Trustees of the Presbyterian Church for the use of the Church for our lecture.

Resolved, That the Ex. Com. be instructed to extend the time of our next Institute to three weeks and that it be conducted on the Normal plan.

Resolved, That teachers who do not attend some Teachers' Institute are for the most part those who still cling to methods now entirely discarded by the successful teachers, and that such teachers should not receive a certificate to teach.

Resolved, That each teacher shall discourage the use of tobacco in his school by example and precept, and that the County Examiners shall not grant a certificate to any teacher who uses either tobacco or intoxicating drink as a beverage.

Resolved, That in order to secure harmony of text books in the country schools, the Board of Education in each township use the power invested in them by Sec. 4020, Revised Statutes of Ohio.

Resolved, That a copy of these resolutions be furnished each of the county papers for publication.

T. M. CHERRY, Secy.
D. B. BLACK, Com.
CLARA ELLER, Secy.

The election resulted in the choice of J. P. H. Sedem, for President, Misses Doyle & McWhin and Mr. Wm. E. Friesner, Vice Presidents, W. E. Engle, Secretary, and A. M. Brown, A. Leonard, and F. M. Gordon, Ex. Com. The Association then adjourned to meet at the call of the Ex. Committee.

Lieutenant Hay, general in chief, commanding the Chicago army of occupation on the Monday Creek, was in the city on last Saturday, under medical treatment for a sprained ankle. Lieutenant Hay and his regiment may scale safely the declivities of Ward and tread securely the smooth tortuous paths of Snake Hollow, but the lava bed pavement in front of the Rempel House, will pitch the best of them.

If the miners could only get the self asured, safe footed Pinter to try a promenade once on our Logan pavement, they would all become cripples, and the chance given to roast and spit all the Indians in the valley. Our pavements are on a Strike, and thus far have got away with citizens, town council, drummers, and Lieutenant Hay.

The editor of the REPUBLICAN-GAZETTE lost his patience in waiting for Cleveland's letter of acceptance and wandered off last week on a discussion of the blandishment of widows. Cleveland's letter was written four days sooner from the date of his nomination than Blaine's, so that it is apparent our brother's impatience is not so much because of Cleveland's delay in his letter as on account of his evaded promptness with the "widows."

We suggest that our impatient brother keep cool, read Cleveland's letter and also take Sam. Weiler's advice.

The 3,000 Piegan Indians at the Blackfoot agency, in Montana, are reported to be actually starving. The death-rate is great.

Protecting the Industries. The Republicans are howling loud about the need of protecting the industries. No need of further protection in the Hocking Valley. A Republican Syndicate protects a few lousy Italians and lazy negroes with a regiment of armed Chicago Pinkerton guards. The 'Industries' are well protected in the mining region.

The Democrats and Greenbackers of Michigan have united and nominated a fusion ticket. This insures the State against Blaine. The Democrats and Greenbackers of Iowa have formed a fusion ticket and the Republicans have lost hope of carrying the State.

A gang of colored men passed through here a few days ago to work in the Hocking Valley mines and to vote the Republican ticket at the October election, if not watched. Democrats up that way should keep their eyes skinned. The Republican party is desperate and ready for anything. [Gallipolis Bulletin.]

No, Bro. Vance didn't come to vote, they came to protect the laboring man, according to the promise of the Republican party. The Democrats will keep skinned eyes on the intruders though, all the same.

A Patriarch Sun Flower. Our town this year as last, is gorgeous in the abundant and beautiful sun flower.

It will be remembered that we noted one last year year belonging to Mr. Hart, having 53 well developed flowers. Mr. Ed. Baker this year has the patriarchal plant.

It is of the old fashioned variety and has 85 flowers. Can any one beat this?

Try the Crystal Baking Powder.

I have obtained the exclusive right to manufacture and sell Dolson's Crystal Baking Powder, which for several seasons, our patrons pronounce the best in the market.

First. It makes the nicest cakes of any other. They raise nicer and quicker from its use than any other powder.

Second. It takes less of this powder than any other, hence the great economy in using it.

Third. It can sell more in bulk for the money than any other powder.

It can be used for all kinds of griddle cakes as well as for biscuit. Sold only in bulk by B. C. McMANIGAL.

Notice to House Builders.

SCHOOL HOUSE IN WARD TOWNSHIP.

Sealed proposals will be received at the office of the Clerk of the Board of Education of Ward township, at 12 o'clock, on the 12th day of September, 1884, for building a school house on the lot situated in Ward township, according to the plans on file in said office.

Each bid must contain the name of every person interested in the same, and to some disinterested person, that if the bid is accepted a contract will be entered into for the building of the school house, and the price of each item, and the price of the whole, must be stated. None but the lowest responsible bid will be accepted, and the Board may reject all bids.

By order of the Board of Education. JOHN E. SHORT, Clerk. Carbon Hill, O., Aug. 21, 1884.

For Sale.

I have for sale two Thoroughbred Scotch Collie Sheep Dogs, both males—see five Dollars each. A pair of dogs, one male and one female, for sale, at five Dollars each. Also, several thoroughbred Poland China Pigs, of both sexes, for sale. WRIGHT.

PROBATE NOTICE.

No. 10. In Probate Court, (that the following persons, who are creditors of the estate of John Weller, deceased, of Hocking county, Ohio, do hereby certify that the same will be paid out of the estate of said John Weller, deceased, and the same will come on for hearing on the 22nd day of September, 1884, at 10 o'clock, a. m., or at such other time as may be convenient.

W. T. ACKER, Probate Judge.

Aug. 28—2w.

JOHN E. RAUCH

MANUFACTURER OF AND DEALER IN
